## **Sysres- Leveraging IT and Outsourcing Expertise to Bring Optimal Change & Tangible Results**

### **Get to know us better**

With an impeccable track record in the Information Technology (IT) and Outsourcing Industry since 2011, Sysres Technologies Private Limited has been enabling the businesses and organizations to be futuristic as well as ambitious in their work environments. Having the right combination of Industry Knowledge, Technology Expertise, Digital Strategies, Competent Methodologies and a robust team of skilled professionals- Sysres has been able to carve its niche in the IT and Outsourcing Industry. Whether you are a startup or small/medium scale enterprise or even a well-established multinational company- we have got you covered as we offer our services to the wide range of industries.

Recruitment Process Outsourcing (RPO) is a major functional area of Sysres in which it has acquired years of experience, and laudable achievements that make this company a force to be reckoned with. Apart from RPO, we are offering services in relation to Software Development, Content Development, SAP, Social Media Marketing, Website Design, Development & Deployment, SEO Services and E-Commerce Solutions to name a few to our valued customers.

We believe that our varied and out-of-the-box service portfolio is what makes our company stand out amongst our competitors in the field. In addition to that, we keep learning and innovating to ensure that any complexity and business requirement can be handled effectively and in a timely manner.

# How it all began?

---

Sysres Technologies Private Limited is the brainchild of the IT professionals- Mr. ManivannanMuthu and Mr. Mohamed Thanseer who came together with the vision of offering cost-effective yet quality-oriented IT and Outsourcing Solutions to the businesses and organizations spanning to India as well as all over the world.

Being in the field of IT and working in the IT education sector by providing Oracle training, made the two founders of this company realize that there is a dearth of quality and dedicated IT Outsourcing companies as well as expertise in the country. This is exactly what motivated them to establish Sysres way back in 2011 as they wanted to share their knowledge and inspire all-round business transformations.

In the context of the skill set and knowledge we had in the IT field, as a startup we took it upon ourselves to train young minds. To this end we started a training division to offer certified IT courses to around more than 100 professionals who have been successfully placed in the IT industry across the countries.

Launching Sysres as a premier IT and Outsourcing Company in India would not have been possible without the continuous support and encouragement from Mr. Mohamed Thahir- another IT professional who has helped in shaping this company and to promote its services.

With the pioneering leadership of the two founders, and the constant guidance of Mr. Thahir besides the hard work of a team of 15-20 expert employees, Sysres hopes to achieve newer heights in the years to come.

# Current Operation Centres

---

Though we are based in Chennai, our operations are conducted in two other metro cities of Vizag and Coimbatore as well. We hope to expand our operations not only in India but also internationally to gain Global success.

## Our Vision

Our company seeks not only to revolutionize the way IT and Outsourcing Services are provided in India but also become a major player in the global market. Building a loyal customer base globally and offering deliverables of international standards that will allow Sysres to become a globally recognized company is our long term vision.

## Our Mission

Closely associated with our vision, Sysres seeks to establish lasting partnerships with the businesses and organizations worldwide by offering strategies and insights that lead to powerful business transformations. We believe in providing optimized and customized IT and outsourcing solutions to all customers so that their business operations become future-ready as the most sophisticated ones.

# Our Core Principles & Values

---

In order to tread on the path of achieving our vision and to fulfill our mission, everyone involved in Sysres adhere to a set of core principles and values. These are our guiding lights and they also help give right direction to our work.

# Let us get you acquainted with them:

---

## Passion & Dedication

Our team is highly passionate and dedicated towards the clients and their requirements. We know that our ultimate success depends on the success of our clients, and we therefore strive to give our best at all times.

## Responsible Work Ethics

We value the trust showed by our valued customers in our services, and to that end we work with integrity, accountability and utmost transparency. We ensure continuous involvement of our customers in all our activities.

## Timely Execution

We know that time is a great resource and it needs to be used effectively. Thus, we at Sysres make sure that all deliverables are offered in a time bound manner to our clients without any hassle.

## Learning & Innovation

We have an in-built spirit of continuous learning and innovation in our work environment because we believe in keeping pace with the newest advancements in the Technology to provide exceptional services to all.

## Quality

All our services are enveloped with quality-orientation to ensure full satisfaction of our clients. The principle value of quality is the touchstone of our IT and Outsourcing Solutions, and we never compromise on it.

# Policy towards Employees

---

We consider the employees to be our family as Sysres and they are the backbone which makes our company thrive fruitfully in the industry. We strive to align the vision and mission of our company with the goals of our employees because we know that only through their happiness can Sysres expect to achieve greater success. We encourage them to develop newer skills and accept challenges with a brave heart. Further, with monthly bonus plans and regular appraisals we keep motivating our employees to do their best.

## Our CSR Initiatives

---

Sysres believes that as a company, it is a socio-economic citizen of India and has a responsibility towards the society in which it has developed over the years. It also believes that it has the ability to tackle social, economic and environmental issues plaguing the country by contributing towards the overall betterment of the country. Therefore, we give importance to several CSR initiatives which have become a part and parcel of our company.

We have supported Caliber Trust in Coimbatore in which we have enabled differently challenged people to complete their education and embrace work life by offering them professional IT courses. A trust of our own company is in the planning stage which will exclusively work for the benefit of the humankind.

# Our Service Portfolio

Sysres Technology Private Limited takes pride in its service portfolio as it has been designed to cater to the varied requirements of the customers, and to meet all sorts of needs of the current times. The range of services offered by us is mentioned below:

## Digital Services

In this era of Technology and Digitization, we understand the importance of building and maintaining the digital presence of a business. With this in mind, we offer our well-thought out and developed digital services like Content Development, Digital Strategy Development, Website Development, Software Development, Social Media Marketing, SEO Services and so on. Through these varied digital services, Sysres enables the businesses and organizations to remold their digital capabilities in the most prudent manner.

## **System Applications & Products (SAP) or Enterprise Resource Planning (ERP) Services**

To strengthen your SAP environment to make sure that your business operations run smoothly as well as your customer relationships remain intact, Sysres offers timely and quality SAP services. Through our ERP services, you get chance to work on improving productivity and quality of your services/products; manage your inventory and human resources effectively; boost your profits and ensure top-notch quality of your services/products.

## **Recruitment Process Outsourcing (RPO) Services**

In order to reach the highest potential, any business or organization requires talented and expert human resources. It is within this context that, Sysres provides customers with streamlined methodologies and technological platforms to not only recruit but also retain the talented people within their respective organizations. By utilizing our RPO services, you save both time and money in the recruitment process and get connected to the most prospective candidates for different positions in your organization.

Our RPO services are offered in the major sectors like Healthcare, Hospitality, Manufacturing, Engineering & Technology et al. With huge success and disciplined implementation of RPO services, we have been encouraged to extend our outsourcing services to other areas as well.

# Why Partner with Us?

---

Working with the right IT and Outsourcing company is an essential criterion, if you want to achieve remarkable heights in your particular industry. The decision to partner with Sysres Technology Private Limited will definitely be worth the while because of the following reasons:
